Projects:

1. EPD Collaboration

Project Name	EPD Collaboration
Client	SAP Labs
Role	UI Engineer
Duration (Months)	2
Team Size	6

Description: SAP EPD Collaboration for short - covers many different topics. In the case of the partial solution for the Collaboration area, it enables joint collaborative product development in the extended enterprise. This enables requirements-driven development collaboration to be driven forward, documents to be shared internally and externally, and collaboration on structured product data

including BOM to be enabled, whether with or without the supplier.

Role and Responsibilities:

Worked on **ReactJS** and Java for this project along with **Redux** for state management. To maintain multi page nature, used **React-Router** and **React-Router-Dom** as well.

2. BPM (Business Process Management)

Project Name	BPM
Client	WELLS FARGO
Role	Junior Front End Developer
Duration (Months)	Currently Working
Team Size	3

Description: BPM is a Wealth Front Office Compliance Application where details of a customer request are captured and based on it categorize the risk and priority of request associated with the customer are tracked and being resolved.

Role and Responsibilities:

- Worked on React-JavaScript and Handled all aspects of the web application including maintaining, testing, debugging and deploying.
- Developed web presentation layer using jQuery, HTML and CSS according to internal standards and guidelines.
- Created Dynamic Web Pages using Web Controls.
- Styling pages using CSS3.0 and developed JavaScript for user interfaces.
- Designed, developed and implemented the database in Microsoft SQL Server for the application
- Migration of ruby test scripts to Java-Selenium and development of new test scripts in Java-Selenium.
- Implementing the Page Object Model (POM) by creating elements for each page object and reusing all the objects in various scripts.
- Estimation of the effort required for testing activity and new development.
- Coach the team members and resolve any blocking technical/functional issues.
- Involved in Sprint planning meetings.
- Status reporting.
- Analysis and maintenance of scripts.
